1050 Gallon Horizontal	126" x 60" x 51"	375 lbs	45"	42"	2
1250 Gallon Horizontal	146" x 60" x 51"	430 lbs	45"	42"	2
1500 Gallon Horizontal	176" x 60" x 51"	585 lbs	45"	42"	2

*From bottom of tank to bottom of hole

These poly septic tanks are pre-plumbed with inlet and outlet tees, gaskets, and manhole covers. These low-profile poly septic tanks have a unique heavy-duty design, for those tougher installations. These tanks can be installed without water and can be backfilled with native free-flowing soil. The 750-1500 gallon models of the NuConSept Plus low-profile poly septic tanks can be used as holding/pump tanks.
